# Greenhouse Gas Verification Statement

SGS has been contracted by Zhongtian Radio Frequency Cable Co., Ltd. (hereinafter referred to as "Client") to provide ISO 14064-3:2019 GHG emissions verification services for the Client's production activities, in accordance with the Client's request and the terms of the contract. The verification is performed in accordance with the ISO 14064-3:2019 standard, covering GHG emissions of the period 01 Jan. 2025 to 31 Dec. 2025 (hereinafter referred to as "Reporting Period").

### ISO 14064-3:2019

as provided by Zhongtian Radio Frequency Cable Co., Ltd. (hereinafter referred to as "Client") to provide ISO 14064-3:2019 GHG emissions verification services for the Client's production activities, in accordance with the Client's request and the terms of the contract. The verification is performed in accordance with the ISO 14064-3:2019 standard, covering GHG emissions of the period 01 Jan. 2025 to 31 Dec. 2025 (hereinafter referred to as "Reporting Period").

### Roles and responsibilities

The Client is responsible for providing the necessary information and data for the verification, and for ensuring the accuracy and completeness of the information provided. The Client is also responsible for ensuring that the production activities are conducted in accordance with the applicable laws and regulations. The Client is also responsible for ensuring that the production activities are conducted in a sustainable manner, taking into account the environmental and social impacts of the activities.

**Objective**

The purposes of this verification exercise are, by review of objective evidence, to independently review:

- The data reported are accurate, complete, consistent, transparent and free of material error or omission.

**Criteria**

Criteria against which the verification assessment is undertaken are the requirements of ISO 14064-3:2019.

**Materiality**

The materiality required of the verification is considered by SGS to 5%, based on the needs of the intended user of the GHG statement.

**Verification approach**

Location-based, drawing on an understanding of the risks associated with reporting GHG emissions information and the controls in place to mitigate these. Our examination includes reported GHG emissions

We plan and perform our work to obtain the information, explanations and evidence that we considered necessary to provide a reasonable level of assurance that the GHG emissions for the REPORT PERIOD are fairly stated.

We conduct our verification with regard to the GHG statement of GHG Report of the RESPONSIBLE PARTY which includes assessment of GHG information system and reporting plan/protocol. This assessment includes the collection of evidence supporting the reported data, and checking whether the provisions of the protocol reference, are consistently and appropriately applied.

**Verification opinion conclusion**

The RESPONSIBLE PARTY provided the GHG statement based on the requirements of ISO 14064-1:2018 that total emission 527,835.57 tonnes of CO<sub>2</sub>e (Location-Based), nBT/F2 11.04 Tf1 (

Disclaiming the issuance of an opinion

It is unable to obtain sufficient and appropriate objective evidence to form an opinion as to whether the GHG statement submitted is presented fairly in accordance with ISO 14064-1:2018

This statement shall be interpreted with the GHG statement of GHG Report of the RESPONSIBLE PARTY as a whole.

Note: This Statement is issued by SGS-CSTC Standards Technical Services Co., Ltd.
